

Dear EANA Executive Committee Members,

I would like to ask you to distribute in your country the following information to the astrobiology community:

"The deadline for submitting abstract to the 8th European Workshop on Astrobiology EANA'08, which will take place from September 1 to 3, 2008 in Neuchatel, Switzerland, has been extended to June 20, 2008. This meeting offers especially to young scientists (PhD students and postdocs) the opportunity to present the results of their studies to a relative small, but highly interested community. It is one of the traditions of EANA, to give many young scientists and students the possibility of an oral presentation. Thanks to sponsorship by ESA a limited number of travel grants is available for undergraduate and graduate students.

More information is available at the web site: <http://www.space-x.eu/EANA08/>

Please, visit also the EANA website: <http://www.astrobiologia.pl/eana/>

Looking forward to welcoming many of you at EANA'08

With best regards  
Gerda Horneck  
President of EANA"

P.S. I very much hope to welcome also many EANA EC members at EANA'08

Dr. Gerda Horneck
