

Dear all,

The astrobiology group website has been updated :

"The FNRS contact group "Astrobiology" invites you to participate to its 2nd workshop

"WATER AND HABITABILITY " on November 20th 2008, at the Planetarium of the Royal Observatory of Belgium

Plenary speaker: Dr Helmut Lammer (Space Research Institute, Austrian Academy of Sciences) "what makes a planet habitable?"

All contributions related to astrobiology, the study of the origin, evolution and distribution of life in the universe, are welcome.

Abstracts should be submitted to v.dehant@oma.be and ej.javaux@ulg.ac.be before November 1st 2008.
