Dear all,
The astrobiology group website has been updated :

<http://astrobio.oma.be/news.php>

Dear all,

In attachment you find for your information the announcement of the 2009 Alpbach Summer School, this time on Exoplanets.
We remind you that BELSPO encourages participation of Belgian students and graduates to this event, but cannot provide funding for it.

best regards,
Werner Verschueren

Dear members of the EANA EC and colleagues interested in astrobiology, 2008 was a very interesting and successful year for astrobiology in Europe and EANA especially. Please, find the highlights summarized in my letter (attached). One of the important events that foster the communication among the European astrobiology community is always the annual workshop, this year in Neuchatel (summary attached).

2009 likewise will have many interesting events on its menu (conferences in 2009 attached).

All this, and many further information, e.g. on open positions for PhD students and post-docs, announcements by ESA, you will find on our EANA website: <http://www.astrobiologia.pl/eana/>

Please, keep our EANA website active by providing information which you think is of interest to the whole community. The contact address is your national representative or szuszs@fermi.fiz.univ.szczecin.pl or gerda.horneck@dlr.de

With my best personal regards
And best wishes to a Merry Christmas, a happy New Year and a successful 2009
Gerda Horneck
President of EANA

And best wishes to a Merry Christmas, a happy New Year and a successful 2009

Thank you for your consideration,
Astrobiology Group - Webmaster
