

Dear all,

The abstract deadline for the workshop "ASTROBIOLOGY: FROM STARS AND PLANETS TO EXTREME LIFE" is extended to December 3rd. There is still some places for talks.

Registration and lunch are free but please confirm to [ej.javaux@ulg.ac.be](mailto:ej.javaux@ulg.ac.be).

Please encourage your postdocs and PhD students to participate. (PhD students get credits for their doctoral formation)

The FNRS "Astrobiology" contact group invites you to participate to its annual workshop "ASTROBIOLOGY: FROM STARS AND PLANETS TO EXTREME LIFE" following the EU COST CM805 the chemical cosmos meeting "carbon in the solar system" (<http://www.busoc.eu/cost/programme.php>)

December 8th 2010

"Salle Méridienne" of the Royal Observatory of Belgium  
rue circulaire/Ringlaan, 3, Brussels

Invited Speakers

Dr Robin Wordsworth, Université Paris 6

"Habitability on the outer edge: Climate studies of Noachian Mars and GJ581d"

Dr Augustin Chicarro, ESA Solar System Missions Division

"The European robotic exploration of the planet Mars"

Dr Emmanuelle Gérard, Institut de Physique du Globe de Paris «Coupled Fluorescence/Raman 3D mapping of modern stromatolites analogs of archean stromatolites »

best regards

Dr. E. Javaux
