

Dear all,

thank you again for your great talks that made yesterday's workshop a success! I hope you are all back safely home despite snow and strikes!

I would like to put our abstracts booklet in ORBI, the open access library of the university of Liège.

Do you agree? if yes, do you want to modify something in your abstracts like include more the missing author names, if any, or your address and e-mail,?

I have attached the file here for you to complete.

thanks again and Véronique and I hope to see you again next year!

best regards  
Emmanuelle
