I am also asked to transmit this information to you:

Dear Colleagues,

As part of the BELSPO CCAMBIO (Climate Change and Antarctic Microbial Biodiversity) Project, we are organizing a workshop followed by a bioinformatics training course entitled "Next Generation Sequencing at the Poles" at the University of Liège, Belgium, from 21-23 November 2012.

The workshop is designed to discuss new NGS technologies, data analysis strategies, challenges, and caveats as applied to microbial ecology. The training course is designed around two software pipelines (MOTHUR and QIIME). We have a wonderful series of expert speakers, with a broad range of experiences, and will have a round-table discussion at the end of the day.

We invite you to participate in this event and attach the flyer and information regarding the event. Online registration will be available as of next week (<http://www.cip.ulg.ac.be/workshopCCAMBIO/>).

We hope to see you in Liège.

Apologies for cross-posting,

Dail Laughinghouse (hd.liv@ulg.ac.be)
Annick Wilmotte (awilmotte@ulg.ac.be)
