

2008-06-16.txt

Dear All

A cross-disciplinary Conference entitled "Complex Systems and Changes: water and Life" (www.esf.org/waterlife), to be held on 29-31 October 2008, in Taormina, Sicily (Italy). The Archean Environment Research network (ArchEnviron) and the LESC Standing Committee of the European Science Foundation will allocate funds for young European researchers to participate in this event. If you, or one of your students or colleagues would like to attend, please consult the attached flyer, or the ArchEnviron website for information on how to apply. The address is <http://www.esf.org/activities/research-networking-programmes/life-earth-and-environmental-sciences-lesc/current-esf-research-networking-programmes-in-life-earth-and-environmental-sciences/archean-environmental-studies-the-habitat-of-early-life-archenviron.html>

In addition, applications are open for short visits between European laboratories to work on research projects related to the general themes of the ArchEnviron research network. You will find this information on the same website under "Further pages ... grants".

best wishes

Nick Arndt
