

Dear members of the EANA EC,

The deadline for abstracts for the International Astronautical Congress in Prague, 27 September - 1 October 2010 is approaching March 5. Please visit

<http://www.iac2010.cz/en/programme>

, and then go to "Call for papers"

Please consider to submit an abstract to the sessions:

A1.5. Astrobiology and Exploration

A new era of space exploration will soon expand into a global endeavour to achieve highly ambitious goals such as establishing human bases on the Moon, journeys to Mars and the construction of new infrastructures in space. Astrobiology plays a key role in the strategic search for organic compounds and life on Mars and other planetary objects in our solar system and can provide support in the preparation of human exploration endeavours. The session invites papers of astrobiological content supporting future robotic and human exploration missions.
