

FNRS Contact Group - Workshop June 5, 2013

09H45 : Coffee of Welcome

10H15 : **Invited Speaker - Reto Gieré:**
Mineralogy of the Atmosphere: Assessing Environmental and Health Impacts of Airborne Particulate Matter

11H15 : **Véronique Schoeman** - *Sea ice as a source of bioavailable_Fe to the Southern Ocean*

12H00-13H00 : Lunch

13H00-13H30 : **François Fripiat** - *Nutrient assimilation/supply in the Antarctic Zone, inferred from nitrate isotopes*

13H30 - 14H00 : **Rawaa AMMAR** - *Lead isotopes as tracer for land-use pollution in soils and sediments of two different watersheds in Lebanon*

14H00 - 14H30 : **Jiayun Zhou** - *IntericeV, an experimental study of CO₂ dynamics in sea ice*

14H30-15H00 : **Weidong Chen** - *High temporal resolution and high precision analysis of stable isotope composition by laser absorption spectrometry*

15H00-15H30 : Coffee break

15H30-16H00 : **Christina Makarona** - *Philia pottery production and exchange patterns: The geochemical evidence*

16H00-16H30 : **Claudio Ventura Bordenca** - *Characterization of the influence of chemical alteration on Lithium concentration and isotopic systematic of meteorites from Hot and Cold desert*

16H30-17H00 : **Hélène Foucart** - *A mineralogical and microstructural study of 7 eucrites*

17H00-17H30 : Seann **Mc Kibbin** - *Pallasite meteorites*

17H30-18H00 : Discussion (date of the next meeting, topic, potential invited speaker)
